

Swaburah Batanda

A-levels Studied: Chemistry, Biology, Maths

University Attending:

De Mont Fort University (Leicester)

Degree Studying:

Medical Science

"... DMU has been awarded a gold in teaching excellence framework, which is a recognition of the outstanding teaching at the university. There are a lot of opportunities for students to get involved in extracurricular activities. For example, DMU global is a scheme where you get up to a £400 bursary for trips outside Europe, and anyone can go! You can get involved in the community through DMU square mile, taking part in cool activities such as abseiling, raising money for charity. There are societies for every interest - from 'Disney' to 'Harry Potter', Pole Dancing - (if that's what you're into!) - Beer Pong, Fire Dancing, Pokémon and many more. And if none of those tickle your fancy, all you need is four people to create a new one. Also, I've heard the nightlife is great in Leicester but I wouldn't know, (I keep it halal). Overall, university is a great experience especially if you don't live at home. First year is basically a continuation of A levels so DO NOT burn your books after exams, you WILL need them. It's amazing how much you can forget over the summer ... "
