

SW Safer Schools Team

19/01/2024

Dear Parent / Carer,

Vape Dangers (Correction to letter dated 12/01/2024)

In the letter dated 12/01/2024 I stated

Please note that vapes containing CBD with a THC content of less than 0.2% are currently legal in the UK – but clearly not for children

Apologies, this was incorrect. It should have stated that vapes containing CBD with any level of THC is illegal no matter how small the amount.

Additionally, if you suspect any shop of selling legal vapes to children, please contact your local trading standards team at your local authority (not the licensing team).

Kind regards,

Inspector Graham Norman
