

Cambridge Technicals in IT

ABOUT CAMBRIDGE TECHNICALS

Cambridge Technicals are vocational qualifications at Level 2 and Level 3 for students **aged 16+**. They're designed with the workplace and progression to higher education in mind. Cambridge Technicals provide a high-quality **alternative** to A Levels at Level 3. Qualifications at Levels 2 and 3 have a mixture of internal and external assessments and centres are allocated a visiting moderator.

Level 2

Our Level 2 Cambridge Technicals in IT qualifications aim to develop your students' understanding and skills of the essentials of IT and cyber security. Your students will gain an insight into the IT sector as they, where applicable, investigate the pace of technological change, IT infrastructure on a global scale, and the importance of legal and security considerations. Designed in collaboration with industry experts, the qualifications focus on the requirements that today's employers demand.

Our broad range of centre-assessed units with both practical and wider project-based assessment opportunities, as well as examined units on the Essentials of IT and Essentials of Cyber Security, help provide a relevant and focused qualification which can be tailored to your students. There are also job role-specific pathways for your students to choose from.
