

Cambridge Technicals in Business

ABOUT CAMBRIDGE TECHNICALS

Cambridge Technicals are vocational qualifications at Level 2 and Level 3 for students **aged 16+**. They're designed with the workplace and progression to higher education in mind and provide a high-quality alternative to A Levels at level 3. Qualifications at levels 2 and 3 have a mixture of internal and external assessments and centres are allocated a visiting moderator.

Level 2

Our Level 2 Cambridge Technicals in Business qualifications aim to develop your students' understanding and skills of the essentials of the business industry. Your students will gain an insight into the business sector and develop applied knowledge and practical skills in business administration, retail and customer service sectors. Designed in collaboration with industry experts, the qualifications focus on the requirements that today's employers demand.

Thanks to a broad range of centre-assessed units with practical and wider project-based assessment opportunities, as well as examined units on the business administration, retail and customer service, these are focused qualifications. There are also job role-specific pathways for your students to choose from.
